About Drillsearch Energy Limited (ASX: DLS), which listed on ASX in 1987, explores and develops conventional oil and gas projects. Drillsearch Energy merged with Great Artesian Oil and Gas (ASX: GOG) in 2008. The merged group has a strategic spread of petroleum exploration and production acreage in Australia's most prolific onshore oil and gas province, the Cooper/ Eromanga Basins in South Australia and Queensland, as well as offshore exploration in the Carnarvon and Gippsland Basins. Drillsearch also has interests in PNG and Canada. The company's focus is on 'brownfields' exploration where geological risk is reduced and there is access to existing infrastructure, ensuring that any discoveries can be brought into production.
